Why

- ✓ Continue to provide high levels of public safety services that are not sustainable long term without additional revenue streams.
- ✓ Provide a revenue source that reduces the City's dependency on property tax to fund the City's public safety operations and a sales tax that reflects the economy of the region.
- ✓ Meet the funding needs for public safety facility projects, including relocation of the the City Police Department to an upgraded building.
- ✓ Provides flexibility for future funding of potential upgrades to other City facilities.
- ✓ Reduce the burden on local tax-payers by offsetting costs on City utility bills.
